### \*\*\* Remote Asynchronous Days (**ASYNC**)

On Remote Asynchronous Days (normally Wednesdays in a 5-day week), students should work independently on their asynchronous lessons / assignments.

This day may also be used for extra support or extra help as needed and scheduled between teachers and students. If you need assistance, set a time to meet with your teacher.

**Goal setting** - students should prioritize, schedule, and focus on their asynchronous work on these days.
